Professional Society Memberships

Association for Computing Machinery (ACM)

Presentations Given

Web/Database Design: PHP and MySQL Basics, March 16, 2005, University of Illinois

Areas of Expertise

My main focus is web application development using both PHP and ColdFusion programming languages, along with MySQL database software. I maintain and administer several RedHat Linux servers, as well as a Fedora Core Linux fileserver. I am proficient in Macintosh, Windows, and Linux operating systems.
